Its design is simple and functional and stands out thanks to the stainless steel ring which adds a distinctive touch to this sober bollard made of iron and finished in wrought iron black.

Bollard made of iron treated with Ferrus, a protective process that guarantees high resistance to corrosion. This treatment consists of three layers applied after shot cleaning all impurities: zinc plated, epoxy primer coating and wrought iron black polyester powder coating.

Recommended anchoring: embedded base and threaded rods with concrete.

Available in:

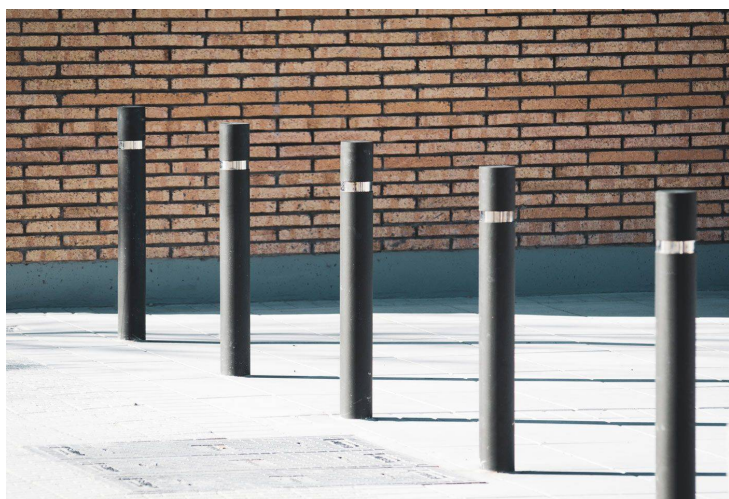

H214 | H214-2 | H214-4 |
H214PMR

Available with:

White color top part. According to
PMR directives.
