

Table made with 50 x 100 mm corten steel tubular legs.
210 x 50 mm pine wood board streated in vacuum pressure autoclave Class IV against woodworm, termites and insects.
Stainless steel screws.

Recommended anchoring: embeddable base with concrete.

Ref.	A	B	H	H1
VM314	1850	1203	910	660

Note:

Natural wood "breathes" i.e. it absorbs humidity and releases it in dry atmospheres. It is therefore normal for cracks to appear in wood. This has no effect whatsoever on its strength and durability.

The rust of Corten steel evolves over time. Therefore, this material will rust sooner or later depending on the humidity and temperature levels.
